Business Services Group

Flame UK is a full facilities management company providing Waste, Energy, Water and P.A.T Testing services. Dedicating our services to the commercial sector, Flame UK is an innovative leader in cost containment and the management for all Waste, Energy and Water consuming businesses. With our unique approach to tailored services and taking into

consideration all sustainability and environmental aspects, we deliver the most suitable and cost-effective solution for your business. Independence is at the heart of our business, we pride ourselves in providing solutions in line with your individual requirements and procurement strategy, always putting you first.

Why choose Flame UK?

Flame UK is one of the UK's leading independent waste and recycling, energy and utility management companies. With over 35 years of expertise and support management with some of the UK's biggest and most recognisable businesses from high street to shopping centres, schools to universities, logistics to manufacturing..... Flame UK service them.

We offer a fully mapped and integrated service individually tailored to our customers needs whilst ensuring full compliance and environmental impact is met.

Flame UK has a comprehensive service portfolio and a national network of partners enabling services to be carried out in compliance with government legislations. Our dedicated team will help to bespoke your commercial needs to make it simple and less time consuming for you, leaving you time to concentrate on running your business.
