

Event Waste Management Services

Flame UK provides a total event waste management service that is tailor-made to your needs

We can provide sustainable waste management for your event, no matter the size or location of your chosen venue. From small indoor events to multi-day festivals, we understand the importance of keeping the environment clean and tidy.

All rubbish must be dealt with efficiently and that's where Flame UK comes in. Our experienced team will advise you and shape what we provide to ensure that your location looks the same after it has taken place as it did before.

You will also have a dedicated account management team who will act as a single point of contact for all your waste services, allowing you to focus on making your event a success.

We can provide

Litter picking

We can help you source dedicated and experienced staff to ensure that your event site is left looking as good as new. The team will be fully equipped to pick in any weather and for any event.

Bin and skip hire

We can provide a range of different sized bins and skips to hold rubbish. We will then take them away afterward and dispose of the waste as sustainably as we possibly can.

Toilet hire

We offer reliable portable toilet hire and will deliver the cubicles to where you need them. We will also maintain them and remove them from the site when you no longer need them.

Litter Picking

We advise hiring 1 litter picker for 1000 people attending your event. However, this is subject to the event type. Our expert team will be able to discuss this further with you to confirm your requirements.

Our experienced litter pickers will be fully equipped with all the health and safety equipment needed to make your event flow smoothly and litter-free.

All litter-picking events are quoted on a bespoke pricing structure to ensure your costs are minimised.

Sustainability

We can provide carbon-neutral waste collections and source transport close to the event to reduce emissions from travel.

We focus on “zero to landfill” and recycling as much as possible. We can provide grade split reports to show you how much of your waste has been recycled.

Have you thought about what your vendors are selling and how they could make this more sustainable? For example, they could introduce reusable cups and recyclable or compostable plates and cutlery.

Payment Terms

We ask for 50% of the event fee to be paid on the day of booking, and the remaining balance to be paid 28 days before the date of the event.

Frequently Asked Questions

How will Flame UK recycle or treat my event waste?

Flame UK aims to send nothing to landfill – we will make sure that all your waste is treated appropriately and is separated at treatment plants to ensure that as much as possible is recycled.

Can you collect and recycle food waste from my event?

Food waste recycling is a big part of our everyday lives. We use the latest technologies to recycle as much food waste as possible, often our food waste can even produce green energy and biofertiliser.

How do I know which bins I need and how many?

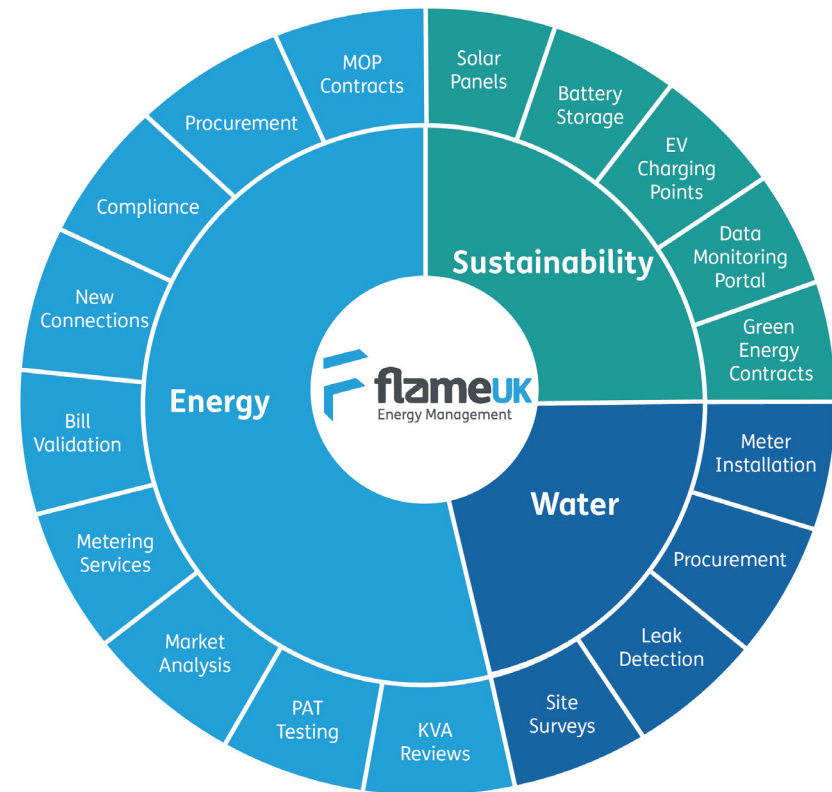

We can help you with this. The number and type of bins will depend on the type of event, how many people and what kind of waste is expected. You may need some smaller wheeled bins to be placed in different areas. These can be emptied regularly if necessary. Our team of experts can help you estimate the number and type of bins that would work best for your venue or site.

Can you help me reduce the cost of my event waste management?

We absolutely can! Our years of experience will help you bring all our skills and experience together to make your event flow seamlessly at the lowest cost.

Is there anything else we can help you with?

We're passionate about helping businesses create a sustainable future through innovative waste and energy management solutions. Our knowledgeable waste and energy teams are more than happy to answer any questions and provide guidance to queries, the "Flame UK Wheels" highlight the breadth of services that we can provide.
